

UN-Oceans Work Programme

(January 2022 – December 2022)

I. UN-Oceans mandate

1. UN-Oceans is an inter-agency mechanism that seeks to enhance the coordination, coherence and effectiveness of competent organizations of the United Nations system and the International Seabed Authority, within existing resources, in conformity with the United Nations Convention on the Law of the Sea, the respective competences of each of its participating organizations and the mandates and priorities approved by their respective governing bodies.

2. Pursuant to its terms of reference,¹ UN-Oceans is mandated to:

(a) Strengthen and promote coordination and coherence of United Nations system activities related to ocean and coastal areas;

(b) Regularly share ongoing and planned activities of participating organizations within the framework of relevant United Nations and other mandates with a view to identifying possible areas for collaboration and synergy;

(c) Facilitate, as appropriate, inputs by its participating organizations to the annual reports of the Secretary-General on oceans and the law of the sea and on sustainable fisheries to be submitted to the Secretariat;

(d) Facilitate inter-agency information exchange, including sharing of experiences, best practices, tools and methodologies and lessons learned in ocean-related matters.

II. Activities in 2022

A. Sharing of information on ongoing and planned activities of participating organizations within the framework of relevant United Nations and other mandates with a view to identifying possible areas for collaboration and synergy

1. Identify ongoing and planned activities related to ocean and coastal issues by UN-Oceans members for the purpose of updating the Inventory of mandates and
